**Correspondence:** As of April 1, Blue Sky Recycling will no longer be handling our aluminum can recycling bin located in Melrose. Mr. DeBerg indicated that there has not been any interest from school groups to date that would be interested in continuing with the program.

### Administrator's Report

1. Mr. DeBerg informed the board that a scheduled presentation about safe schools during the February teacher in-service held special meaning in light of the February 14 school shooting in Parkland, FL. All district members strive to make positive connections with every student in our district and encourage everyone if they 'see something, say something'.
2. This winter has been extremely busy between sports and academics. Students are heading to state in Academic Decathlon, Mock Trial, and wrestling (team and individual competitions). Both the Boys and Girls Basketball teams are conference champions and heading into regional and sectional playoffs. The junior high band students will be playing in Honors Band concert held at Blair-Taylor High School this weekend. So much for our district to be proud of!
3. There will be a Budget Committee meeting on Friday, March 23 at 7:00 a.m. in the Administrative offices.
4. The district still has an A+ bond rating. The second round of borrowing was locked in today with a 3.56% rate. The first round was at 3.59%. The third and final round of borrowing will come in July 2018.

**Open Forum:** Paul Nau commented how great it is to see all the progress of the consolidated campus. He also presented a couple reports about the WI Idea.

**Finance:** Review of the expenditures and receipts through January. There were no budget changes. Motion by Whalen, second by Sacia to approve the check summary & vouchers in the amount of \$3,923,959.22. Motion carried 6-0.

### Other Business

Craig Namyst from Market & Johnson was present to take the board members through the link that connects the high school & Tech Ed buildings as well as through the 7-8<sup>th</sup> grade classrooms. The high school/Tech Ed link is scheduled to be opened up tomorrow for students to move through when changing classes. Although nothing has been decided, the district would like to possibly use some contingency money for other upgrades such as replacing the old gym ceiling and seating in the auditorium.

6. While on the building tour, the board members stopped in Tech Ed instructor Jim Briggs' room. February is Career & Technology Education Month and Mr. Briggs showed the board members what the students have been creating on the laser cutter as well as other pieces of equipment. He also provided each board member with a personalized aluminum water bottle. Student participation in these classes continues to grow. Students earn both high school & college credits for taking classes such as Wood Tech, Advanced Welding, & Child Development. Future articulated classes may include Auto Cad and Carpentry.

9. Motion by Zeman, second by roll call vote to adjourn to Executive Session per WI Statute 19.85 1(c) to consider employment, promotion or performance at 8:27 p.m.
